

# Bora II

12v/24v Auto-Sensing Fan

**SEEKR**   
by *Caframo*

Building on the legacy of the original Caframo Bora fan, the Bora II packs even more power and versatility into its compact design, including 3 speed settings, an integrated digital switch, and advanced 12V/24V DC auto-sensing technology.

The quietest DC fan in its class, the Bora II is easy to install and economical to run with its low power draw, long-life motor delivering smooth, efficient airflow whenever it's needed.
